MERITS OF LOCAL MEN RECOGNIZED

Nevada will probably gain a whole lot more of good advertising this summer when two and possibly more of the university rugby players will tour England and Australia with the all coast team. Leavitt and Dolan are the two men chosen from Nevada, their names being selected with eighteen others from the university of California and Stanford University. Details of the trip have not been definitely decided upon, but it is understood that an all coast team of twenty players will leave Vancouver in the latter part of May and spend the summer months playing with all the best foreign rugby teams. The English and Australian clubs have agreed to meet all the traveling expenses of the Americans.

GREAT BATTLESHIP IS TO BE NAMED NEVADA

It has been practically determined that one of the two great Dreadnaughts to be constructed by the United States shall be named Nevada.

The second will probably be called Oklahoma.

The new ships, the Nevada and Oklahoma, will be 550 feet long, and 95 feet beam. Their draught will be 28.5 feet. Their displacement at least 26,000 tons and probably 27,000. The speed will be 21 knots, the coal load 3,000 tons, and they will carry a complement of 75 officers and 1,500 men. The armor will be eleven inches on the belt and on the barbettes and eight inches on the sides. There will be in addition to the ten 14-inch guns, several 5-inch guns. As floating fortress the ship will thus have two guns for every sector and with overlapping ranges. A five inch gun has been placed at the stern to protect from torpedo attack. A similar provision would be made at the stem but for the difficulty of putting a shutter here that will keep out the water in heavy seas.

NINE CARS OF FREIGHT RECEIVED IN LOCAL YARDS

CONSIGNMENTS FOR TONOPAH MERCHANTS CONTINUE TO INCREASE.

The increase in freight consignments as received by the Tonopah and Goldfield railway, kept up to the standard yesterday when nine cars of merchandise and different material were received in the local yards.

The shipment was composed of four cars of commercial oil, billed to the different mining companies; one car of dynamite for the Belmont; one car of cement for Wittenberg Warehouse company; one car of fruit and vegetables for Wood Curtis and company, and a car of barley for McLean and McSweeney.

PIONEER LEASE FORCED INTO TROUBLE

The failure of the First National bank put the Pioneer Leasing company in bad straits, without funds, banking facilities and practically stranded. Consequently the miners were not paid at the usual time. Then some attachments were put upon the ores extracted. Then M. E. Canning, representing the parent company, sought to declare the lease forfeited.

Mr. Stickney went to California and left the company in a hole.

However, the lease is too valuable, and the interests that Smith and Stickney do not control are now arranging to pay debts and continue operations. Both these gentlemen are busy elsewhere, so other men will soon control and get the lease in shape for dividends. The future of the Pioneer lease is assured.

Remember that we still make books and guarantee them.

STOCK MARKET

Tonopah Mining, which took a decided slump Tuesday, strengthened up yesterday and at the close of the session of the San Francisco stock exchange, had gained twenty-five cents. Belmont also appeared stronger and regained 2½ cents of the loss resulting during the early part of the week. Extension and MacNamara both lost two points while Midway fell back one cent.

PERSONAL

Mr. and Mrs. W. F. Tait of Goldfield came over from the southern city yesterday.

Judge J. A. Sanders, who was called to Carson Monday, returned yesterday on the southbound train.

Howard Izzard, who spent several days at Round Mountain and Manhattan, returned to Tonopah last evening.

W. J. Douglas, Tom Kendall and Bob Walsh visited Silver Glance district yesterday. The trip was made by auto.

Walter Shelton, the Goldfield attorney, who was formerly associated with Key Pittman, came over from the southern city yesterday on legal business.

W. P. McCarthy, who assisted in the survey of the Round Mountain Mining company ground that is in dispute, and afterwards spent several days in Manhattan, came in from the north last evening.

Letson Balliet and George B. Swasey, who went to Yerington Monday morning for the purpose of instituting a company of the Uniform Rank, Knights of Pythias, returned yesterday. The new company starts off with a membership of eighteen, which will probably be doubled by the time the grand lodge meets in Goldfield in June.

Temperature Report

MAKES PAYMENT OF FIRE LOSSES

V. H. Quitzow, special agent of the New York Underwriters' association, visited Tonopah a few days ago and settled a loss for his company by paying Mrs. Mary Reeves \$650 for her dwelling and household effects that were destroyed recently by fire. She is a widow, living with her daughter and appreciated the prompt and fair treatment of the adjuster. Mr. Quitzow also represented the Teutonia company, of which Scott Groo is the local agent.

FUNERAL OF WALTER DECKER AT CARSON

The remains of the late Walter Decker arrived from San Francisco yesterday morning and were met at the depot by a large number of the friends of the deceased who escorted them to the home of the parents, where the funeral will take place this afternoon at 2 o'clock. The funeral services will be read by the Rev. McCreery and the funeral will be under the auspices of the Warren Engine company of which company the deceased was a member.—Carson News.

OXIDIZED ORE ON THE BOOTH

It is reported that about four feet of oxidized ore, similar to that in the upper workings of the Red Top, has been passed through on the Lind lease on the Booth, in the crosscut that is being driven east from the Booth shaft. Values are said to be very encouraging, but not high enough for pay ore. The Weber, McLaughlin, et al. lease on the south end of the Booth is showing some good quartz and a decided improvement in vein matter, and the lessees confidently expect ore at a not remote date. A good force of men are at work and developments are being rapidly pushed.—Goldfield Tribune.
